

Milford on sea U3A guidance on non-members attending social events and trips

In general, non- members cannot attend social events or trips in order to comply with the insurance policy. However, this may be allowed very occasionally if the event or trip is not fully subscribed and allowing non-members helps to make the activity ensure it does not run at a loss. However, this exception only applies when it is clear that the number of members signing up is not sufficient to break even financially.
